

Non-professional Counselors and Advocates

Individuals who work in College Health Services, including front desk staff and students, can generally talk to a victim without revealing any personally identifying information about an incident to the College. A victim can seek assistance and support from these individuals without triggering a College investigation that could reveal the victim's identity or that the victim has disclosed the incident.

While maintaining a victim's confidentiality, these individuals or their office should report the nature, date, time, and general location of an incident to the Title IX Coordinator. This limited report – which includes no information that would directly or indirectly identify the victim – helps keep the Title IX Coordinator informed of the general extent and nature of sexual violence on and off campus so the coordinator can track patterns, evaluate the scope of the problem, and formulate appropriate campus-wide responses. Before reporting any information to the Title IX Coordinator, these individuals will consult with the victim to ensure that no personally identifying details are shared with the Title IX Coordinator.
